Globe-Democrat.—In New York the
financial disturbance will undoubtedly
beat the Democratic party in the election
this year, and in Massachusetts, Ohio and

CALAMITY'S GIBLAT VICTORY.

Ousego (N. Y.) Times.—The New York

Press has computed the loss to the country in depreciation of certain values for the nime months since Mr. Cleveland's election. Its tabulated statement shows the loss in nine months is \$1,312.89,114. This is half what the National debt was at the end of four years of bloody and expensive conflict in putting down the Rebellion. Next after the Rebellion alone the Democratic victory of nine months ago is the greatest calamity ever visited upon the country.

The loss of the labor of so many men is
enormous, but the worst thing is that
they and their families are either suffering already or are in danger of absolute

PRIE NEED OF GEORGIA.

Philadalphis Inquirer.—It is a curious condition of affairs which exists down in Georgia. A public movement is under way there to compel the quarterly payment of public school teachers. Think of that! Under the present plan the teachers are never certain of getting their money within six, eight or ten months of the time of service. If there is money to do everything else and enough left over afterwards to pay the teachers, they get what they have earned. If there is not, and it appears that this is usually the case, they are obliged to hold on to their orders until they can sell them to some broker, merchant or other business man at from 10 to 26 per cent. discount.—Sturally they do not like this. There no reason why they should. What longia needs is a little less time to devote to National reform and a little more for local advancement.
